STERLING GRAY - Ashlar

Lenght: 4" - 16" height: 3" - 8"

STERLING GRAY - Square-Rec

Facing Area: 0.25 - 1.25 sf

STERLING GRAY - Mosaic

Facing Area: 0.25 - 1.25 sf

Color and Shape

Pictures in this flyer try to reflect the color and texture of the stones, however they will not always have the same look because the stones vary in color, veining, texture and shape from piece to piece. More or less trimming may be required to achieve the desired look. It is recommended ordering 10% to 15% additional material for field trimming. Fieldstone Veneer is not responsible for the variation of such colors and textures used on this flyer. We recommend you request a free sample of the material to be used.

Corners and Shapes

Our Corners are cut to 90 degrees and are available in all shapes and colors. Corners are sold by linear foot and are available in crates of 100 linear feet.

MOSAIC
